

Try one of these fun science experiments

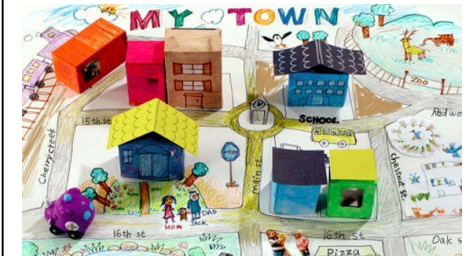

<https://www.science-sparks.com/early-years-science-themed-activities/>

Go on a day out / journey.
Take a photograph and write about it.

Find out a fact about the local area and share this with the class.

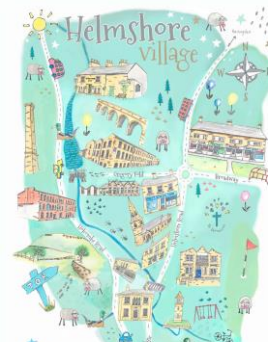

Draw a map or make a 3D map, remember to add lots of detail and labels.

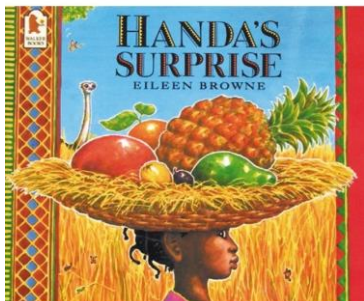

Reception Homework

Wish You Were Here

Here are some activities we think you and your child might enjoy doing at home. Please complete one each week.

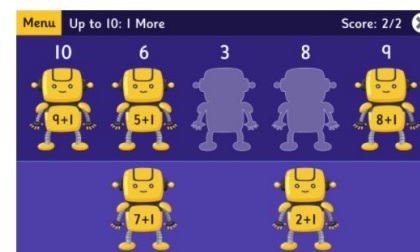

Go to the library and try to find some stories set in other countries.

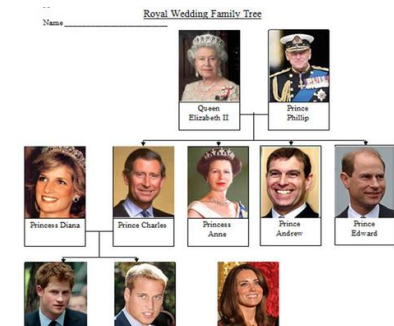

Have a look for some old photographs of the place where you live. Talk to your grown up or grandparents about what it was like in the past.

Find one more / one less by playing

<https://www.topmarks.co.uk/maths-games/robot->

We are looking at the King's family tree. Make your own family tree.

Use Google Earth/ Maps to explore lots of different places. Write a list of places you would like to visit.
